The time period for reply, if any, is set in the attached communication.

Continuation of Substance of Interview including description of the general nature of what was discussed: Examiner indicated the possible allowable subject matter of claims 3 and 5. Examiner presented the opportunity for Applicant's representative to amend claim 1 to include the subject matter of either claim 3, claim 5, or both together. Such an amendment would further the prosecution of the case in the direction of allowance. However, Applicant's representative stated that he did not believe Applicant would be willing to amend claim 1 to include this subject matter, as Applicant and Applicant's representative still feel claim 1 is allowable over the prior art. Examiner will reopen prosecution, conduct a further search against claim 1, and send out a subsequent Office action.
